

MANUAL REMOTE CONTROL ARJES EKOMAXX 800

Start-up Arjes Ekomaxx 800

1 Main power switch

When the shredder is not in use, the main switch must always be turned off for safety reasons. When starting the machine, first turn the switch to the open position.

2 Emergency stop on/off

Before starting the Arjes Ekomaxx 800, it is important to deactivate the emergency stop. Turn the emergency stop button until it pops up.

3 Transmitter on

Then press the green button at the bottom left. You will hear a signal sound on the machine, indicating that the transmitter and receiver are activated, and consequently, the remote control is activated.

4 Setting the remote control to level 2.

Use the designated button to switch between level 1 and level 2:

- Level 1 includes both automatic and manual functions.
- Level 2 includes only manual functions.

When the operational indicator light is on level 2, the green LED at the top will be lit.
